2 von 13

The image shows a Java Swing window titled "Angestellte". Inside the window is a "Formular" (Form) with several components. At the top, there's a title bar with standard window controls. Below it, the form has a header "Formular". The form contains several input fields and buttons. The "PersNr" field contains the value "2". The "Name" field contains the value "Wajda". The "Rang" field contains the value "A". The "Raum" field contains the value "130". There are two buttons, "Professor" and "Assistent", which are part of a "Notebook" widget. The "Assistent" button is currently selected. Below these buttons are three more buttons: "pruefen", "ProfessorAssistent", and "ProfessorVorlesung". At the bottom of the window, there is a status bar showing "2 von 13" and several navigation icons.
